[philip.uguru09@gmail.com](mailto:philip.uguru09@gmail.com) | +2348133847043 | Abuja, Nigeria | [www.linkedin.com/in/philip-uguru-9030ab3b4](https://www.linkedin.com/in/philip-uguru-9030ab3b4) | [github.com/ManLikeLee](https://github.com/ManLikeLee) | [my-portfolio-philip-uguru.vercel.app/](https://my-portfolio-philip-uguru.vercel.app/)

Aspiring Full-stack Developer with 1.5+ years in AI/Data quality and 5 years in operations, leveraging a strong foundation in Next.js, React, Node.js, and PostgreSQL. Proven ability to build scalable web applications and drive efficiency, eager to apply analytical and problem-solving skills to innovative software development.

## EDUCATION

**National Open University of Nigeria**  
*Bachelor of Science in Computer Science*

Nov 2022 –  
Abuja, Nigeria

## EXPERIENCE

**Turing AI**  
*Research Quality Specialist*

Nov 2025 – Jun 2026  
*Remote*

- Analyzed and refined 100+ research prompts and rubric criteria, enhancing evaluation consistency by 20% for AI model training.
- Proactively identified and resolved critical inconsistencies in evaluation standards, improving rubric clarity and application across 100+ research prompts.
- Refined and rewrote evaluation criteria with clear reasoning
- Participated in calibration processes for quality alignment

**Mindrift**  
*Data Annotation / QA Expert*

Dec 2024 – Sep 2025  
*Remote*

- Assessed 500+ search results daily, providing critical feedback that directly contributed to a 15% improvement in search ranking system accuracy.
- Ensured high data quality by meticulously reviewing product categorization accuracy for 500+ search results daily, directly impacting search algorithm performance.
- Assessed AI outputs for safety, helpfulness, and factuality
- Provided feedback to improve annotation quality

**VUR Global Ltd**  
*Director / COO*

Jan 2020 – Nov 2025  
*Abuja, Nigeria*

- Streamlined operational workflows, reducing processing time by 25% and establishing scalable systems to support 50% business growth.
- Led digital initiatives for customer acquisition
- Cultivated strategic partnerships and spearheaded business development initiatives, contributing to 50% year-over-year business growth.

**WCL**  
*Sales Representative*

Jan 2018 – Aug 2019

- Achieved high conversion rates (~30%)
- Maintained strong client relationships

**Sagefour**  
*Human Resource Manager*

Feb 2015 – Oct 2017

- Streamlined end-to-end recruitment and onboarding processes for 20+ new hires, enhancing team integration and operational efficiency.
- Coordinated team operations

## PROJECTS

**Laundaland- Laundry Service Platform** [github.com/ManLikeLee/laundaland](https://github.com/ManLikeLee/laundaland) | React, TypeScript, JavaScript, Tailwind CSS, Node.js, MongoDB, Socket.IO

- Developed a full-stack laundry service platform using React, Node.js, and MongoDB, enabling users to schedule and track services with real-time updates.
- Prioritized user experience by implementing intuitive UI/UX design and structured workflows, resulting in a seamless service scheduling and tracking process.

**ShopEase – E-commerce Application** [github.com/ManLikeLee/ShopEase.git](https://github.com/ManLikeLee/ShopEase.git) | Next.js, Tailwind CSS, JavaScript, React, Node.js

- Engineered a responsive e-commerce application with Next.js and React, implementing a robust product browsing and cart management system for seamless user experience.
- Engineered a highly responsive and visually clear user interface with Next.js and Tailwind CSS, optimizing the product browsing experience across devices.

**TaskForce** [github.com/ManLikeLee/task\\_manager](https://github.com/ManLikeLee/task_manager) | Next.js, TypeScript, Tailwind CSS, Node.js API Routes, PostgreSQL, Prisma

- Designed and developed a scalable full-stack web application delivering a responsive, mobile-first user experience.
- Implemented secure authentication, role-based access control, RESTful APIs, and third-party integrations for payments, notifications, and cloud storage.
- Optimised application performance through server-side rendering (SSR), modern development workflows, and production-ready deployment using Git and CI/CD practices.
- Architected and deployed a scalable full-stack task management application, supporting 1,000+ concurrent users with PostgreSQL and Prisma, ensuring high availability and performance.

## **TECHNICAL SKILLS**

---

**Programming Languages:** HTML, CSS, JavaScript, Next.js, Tailwind CSS, Node.js, REST APIs, Firebase, Supabase

**Frameworks & Libraries:** React, Next.js, Node.js, TailwindCSS

**Developer Tools:** Git, Github, VS Code, Codex

**Other Skills:** AI Evaluation & Data Annotation, AI Prompting, Production experience with LLM's, Visual Quality Assessment, Guideline Adherence & QA, UI/UX Analysis, Analytical Problem Solving, Communication & Reliability
